Club Membership Policy

In order to be accepted as a Registered Charity (as a Community Amateur Sports Club - CASC), the club has demonstrated its open membership policy to the satisfaction of the Charity Commission.

As the Charity Commission document RR11 - Charitable Status and Sport says - "Open membership is essential if a club is to meet the requirement of public benefit that applies to all charities. A club that operates restrictions in its membership provisions could not claim to be encouraging community participation."

Membership of Winchester & District Athletics Club is open to anyone who is eligible to join an athletics club under the rules of the national athletics governing body.
